The Aquatec Console modules and instruments can be combined in an almost infinite amount of combinations, allowing you to change or upgrade your console configuration as you want.

DG-700 Depth Gauge

The AQUATEC DG-700 Depth Gauge features a reliable Bourdon tube mechanism with a gear system, a maximum depth indicator, a zero-in facility for high altitude diving and a phosphorescent dial face.

The scale is available in meters (70m) or feet (230ft). The DG-700 is available as a wrist or console model.

PG-400 Pressure Gauge

The extremely compact AQUATEC PG-400 Pressure Gauge incorporates a safety-pin-type tube and a gear mechanism, which provide outstanding accuracy and durability..

The clear and bright phosphorescent dial face provides excellent readability, also in demanding conditions. The PG-400 Pressure Gauge can be attached directly to HP hose, or fitted in the AQUATEC consoles. The GP-400 Pressure Gauge is suitable for 300bar tank.

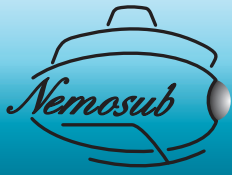

SC-600 Superior Compass

The high-quality liquid filled AQUATEC SC-600 has set a new standard for dive compasses. The device features 2-3 times larger tilt potential than in conventional diving compasses and provides easy-to-read numerals.

Product Features

- Tilt potential of +/- 25°.
- Phosphorescent compass plate.
- Large Side-Reading window.
- Easy-to read graphics.
